JIFFY JACOB

AI / ML INTERN | DATA SCIENCE

PROFESSIONAL SUMMARY

Data Scientist with hands-on experience in Python, data preprocessing, EDA, feature engineering, machine learning, NLP, and model evaluation. Built predictive, recommendation, clustering, and text-classification projects using real-world datasets.

TECHNICAL SKILLS

Programming: Python

Data & ML: Pandas, NumPy, Scikit-learn, EDA, Feature Engineering, Regression, Classification, Clustering, Model Evaluation

Deep Learning & NLP: TensorFlow/Keras, Neural Networks, TF-IDF, NLP, Sentiment/Emotion Classification

Recommendation: Collaborative Filtering, User-Based CF, Item-Based CF, Cosine Similarity

Tools: Matplotlib, Seaborn, Jupyter, Google Colab, Git, GitHub

MACHINE LEARNING PROJECTS

ML-Powered E-Commerce Sales Prediction & Customer Behavior Analytics

- Built sales prediction models on Olist e-commerce data using preprocessing, EDA, feature engineering, and five ML algorithms.
- Random Forest achieved R^2 0.823 and MAE 7,294; applied K-Means for customer segmentation.

Book Recommendation System - Collaborative Filtering

- Developed personalized Top-10 recommendations from 74,907 ratings using user/item-based collaborative filtering and cosine similarity.
- Evaluated with Hit Rate@10, Precision@10, Recall@10, and NDCG@10; User-Based CF achieved 7.44% Hit Rate@10.

Emotion Classification using NLP & Machine Learning

- Classified text into anger, fear, and joy using TF-IDF with Multinomial Naive Bayes and Linear SVM.
- Linear SVM achieved 92.85% accuracy and 92.84% F1-score.

CERTIFICATION

Data Science with Gen AI - Entri Software Private Limited, Illinois Tech US, NSDC (2026)

Covered Python, data analysis, and machine learning fundamentals. Studied supervised and unsupervised learning, deep learning, and NLP concepts through coursework and assignments. Learned foundational Generative AI concepts as part of the course.

EDUCATION

Master of Technology (M.Tech) in Signal Processing - Rajagiri School of Engineering and Technology, Kakkanad, Kerala
